

TYREWISE DOMESTIC INCENTIVE ADVISORY SCHEDULE

PROCESSING AND MANUFACTURING

Actual incentive agreed to when entering into a Registered Processing or Registered Manufacturer Agreement
 Rates are per tonne. Rates exclude GST. Incentives are payable on evidence of eligible sale to the domestic market only.
 Under no circumstances will Incentive payments exceed the expenses incurred by the Processor or Manufacturer to process the particular format of Tyre Derived Rubber Material produced.

| Incentive Rates - Tyres in Engineered Solutions | Code | Description | Processing Incentive per tonne for eligible sale |
|---|------|---|--|
| Whole Tyres | TW1 | Whole Tyres: Tyres essentially used in their original form. Civil Engineering (Baled - Retaining Walls, Temporary Roads, Sea Embankments, Blasting mats). | Up to \$165 |

| Incentive Rates - Tyre Derived Fuel | Code | Description | Processing Incentive per tonne for eligible sale |
|-------------------------------------|------|--|--|
| Feedstock | TDF1 | Primary Shred for further use in a destructive process or secondary process, typically irregular shape. Cut tyres or portions between 100 - 300mm. | Up to \$365 |
| | TDF2 | Whole Tyres for Energy Recovery. | Up to \$70 |

| Incentive Rates - Tyre derived products | Code | Description | Processing / Manufacturing Incentive per tonne for eligible sale |
|---|------|---|--|
| Processed Tyre Derived Rubber Materials: Varying sized crumb used as end use functional product or as raw material for a secondary process e.g., Mulch, Landfill Engineering, Equestrian Arenas, Civil engineering, Tyre Derived Aggregate | TDP1 | Rubber Powder: For end-of-life tyres processed into rubber powder (mesh size 30, 0 micron - 0.9mm). Free of steel and fibre. | Up to \$390 |
| | TDP2 | Rubber Granulate Uncoloured: For end-of-life tyres processed into uncoloured rubber granulate, free of steel and in accordance with playground standard (mesh size 1-29mm). | Up to \$365 |
| | TDP3 | Rubber Chip, typically cubical in shape: For high volume applications, used as road-fill – commonly known as tyre derived aggregate or TDA (30-299mm mesh size). | Up to \$85 |
| | TDP5 | Rubber Granulate Coloured: For end-of-life tyres processed into coloured rubber granulate, free of steel. in accordance with playground standard. (Mesh size 1-29mm) | Up to \$365 |

| Incentive Rates - Tyre derived manufactured products | Code | Description | Processing / Manufacturing Incentive per tonne for eligible sale |
|--|------|---|--|
| | TDP4 | End use / Fabricated products (use 75% by weight of TDP 1- 3) (Incentive negotiated per application type) | Up to \$160 |
| | TDP6 | Carbon Black derived from tyre pyrolysis undertaken within New Zealand. (Incentive negotiated per application type) | TBA |

Tyrewise may consider alternative incentive rates for processing categories not shown in this summary table. Incentives are reviewed periodically. Tyrewise does not assume responsibility for any commercial activity or decisions made on information contained in this schedule. Current incentive rates are shown on www.tyrewise.co.nz.
